SPILL RESPONSE PROCEDURES

NOTE: IN CASE OF FIRE, EVACUATE ALL PERSONNEL FROM THE IMMEDIATE AREA, RENDER FIRST AID TO ANYONE WHO IS INJURED, AND DIAL 911 IMMEDIATELY. TAKE APPROPRIATE STEPS TO PROTECT HUMAN LIFE AND TO CONTROL FIRES FIRST. SPILL CONTROL IS A SECONDARY CONCERN.

A Spill Response Plan is included with the Stormwater Management Plan and can be accessed through the link above. In event of a spill emergency actions and refer to spill guide included with stormwater plan. For any spills of chemicals reaching inlets or waters of the State, or in excess of reportable quantities, notification must be provided to the State utilizing the information contained within the SWMP
