

Imperial Sovereign Rose Court Board of Directors
College of Monarchs
The International Court Council Nomination Committee

May 25th, 2026

To Whom it May Concern,

I am writing this letter as an endorsement for Dr. Poison Waters to support the nomination application for Queen Mother of the Americas, representing the International Court System (ICS).

I moved to Portland, from San Francisco, in 2014 for the position of Regional Executive for Wells Fargo Bank in Oregon, Washington and Northern Nevada (I retired April 2025). I met Poison soon after moving to Portland and I feel extremely lucky to have the opportunity to get to know what an incredible human being she is.

Poison's bio lists so many career highlights, professional competencies, awards and honors. I want to highlight her Personal competencies and character. These include, her ability to connect with people at all levels, from the State Capitol steps in Salem, Oregon to the steps of City Hall in Portland. She is a person of high integrity, consistently meets deadlines and responsibilities, often going above and beyond what is required. Poison is a pillar of our community, known for her volunteerism with Cascade AIDS Project and Camp K.C.(Kids Connection), representing communities of color and the LGBTQ community with tough, necessary conversations, teaching the history of drag at Portland Community College, reading to children at local libraries and being an extraordinary entertainer.

I am confident that Dr. Poison Waters will be even more valuable to the ICS in this honored position. We are so lucky to have her in the Pacific Northwest but we know its time to share her expertise, experience and enthusiasm across the Americas.

Please feel free to contact me, 707-484-8589 or tacurtis@me.com if you require further information,

Sincerely,

Tracy Curtis
Retired Region Executive
Wells Fargo Bank
