

Letter of Endorsement for Queen Mother of the USA Danielle Logan, for Queen Mother II of the Americas

To Whom It May Concern,

It is with profound esteem and unwavering conviction that I offer this letter of endorsement for Danielle Logan to be considered for the distinguished title of Queen Mother II of the Americas within the Imperial Court System.

Throughout my reign as Empress 42 of Hawai'i, Danielle remained one of my most steadfast pillars of strength. Though she relocated out of state during that year, her devotion, loyalty, and presence never faltered. She exemplified with grace that true support is not defined by physical proximity, but by one's willingness to answer the call with consistency, compassion, and purpose. Danielle was always only a phone call away, offering guidance, reassurance, and encouragement whenever it was needed.

Throughout my travels, Danielle ensured that I was properly equipped with the knowledge, preparation, and confidence necessary to represent my title with dignity. She checked in faithfully, offered her time generously, and helped ensure that each engagement proceeded with poise, order, and care. Knowing the breadth of responsibilities she carries, I have never overlooked the discipline, dedication, and heart it required for her to remain so present. I deeply admire her remarkable ability to balance her many duties while continuing to serve with elegance, integrity, and purpose.

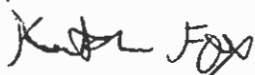

Beyond my own personal experience with Danielle, I must also recognize her enduring and consequential work in advocacy—not only for transgender rights, but for all who identify within the LGBTQIA+ community. Having witnessed her efforts firsthand, I can say with certainty that Danielle does not serve for recognition alone. She serves because her heart is genuinely committed to the people and communities she uplifts. Her compassion is evident, her conviction is resolute, and her leadership is rooted in meaningful action.

Danielle is, in every sense, a leader who embodies dignity, service, and grace. She does not merely speak of commitment; she demonstrates it through her actions, her presence, and her enduring devotion to community. Her example commands respect, and her service reflects the very essence of what this title represents.

It is for these reasons that I am honored to offer my full and heartfelt endorsement of Danielle Logan for Queen Mother II of the Americas.

With deepest respect,

Empress 42 of Hawai'i Kalista Fox
