

Nomination Letter for Queen Mother of the Americas

To the Selection Committee,

It is with great pride and unwavering confidence that I submit this nomination of **Poison Waters** for the esteemed position of **Queen Mother of the Americas**.

My name is **Scotty B. Boxx**, and I have had the privilege of knowing Poison personally for more than a decade. During that time, I have witnessed firsthand the extraordinary impact she has had not only on the Portland, Oregon community, but throughout the International Court System and beyond. Few individuals embody the spirit of leadership, service, and community stewardship as completely as Poison Waters.

Poison's leadership is rooted in action. She leads by example, demonstrating every day what it means to dedicate oneself to the betterment of others. Throughout her nearly four decades of service and entertainment, she has consistently used her platform to uplift those around her, champion important causes, mentor emerging leaders, and create opportunities for countless members of our community. Whether through fundraising, education, activism, or direct service, her commitment has never wavered.

What has always impressed me most is the respect Poison has earned throughout the years. She is someone people naturally look to for guidance because she has consistently demonstrated integrity, compassion, and wisdom. She understands that true leadership is not about recognition, but about lifting others up and creating pathways for future generations to succeed. Her mentorship has helped shape countless performers, community advocates, and court members, leaving an enduring legacy that continues to grow.

Poison's accomplishments speak for themselves. Her extensive service within the Imperial Sovereign Rose Court and the International Court System, her humanitarian work, her advocacy, educational contributions, and the many honours she has received throughout her career reflect a lifetime dedicated to service. From receiving the International Court System Lifetime Achievement Award to being recognized as one of Oregon's most inspiring people, her impact is both measurable and profound. Most notably, her elevation as **Queen Mother of Oregon** stands as a testament to the trust, admiration, and reverence she has earned from her peers and community.

Beyond the accolades, however, is the person. Poison is a hardworking queen who takes her responsibilities seriously. She approaches every role with professionalism, grace, and a genuine desire to serve. She is a pillar of her community whose success has never been self-serving, but rather a reflection of her commitment to helping others succeed alongside her.

The position of Queen Mother of the Americas requires an individual who can inspire, unite, and lead with both heart and experience. Poison Waters exemplifies those qualities. Her decades of service, her unwavering commitment to community, her proven leadership, and the immense respect she commands throughout the Court System make her exceptionally qualified for this role.

I can think of no one more deserving of this honour, and I offer my strongest possible endorsement of Poison Waters for the position of **Queen Mother of the Americas**.

With respect and admiration,

Emperor 51 of Vancouver, BC
Czar 1 of All Canada
