

# THE ANNIVERSARY

## Chapter 1 (M/F)

“One more year babe,” Angel teased as she gently stroked her husband’s hardening cock.

“Yes, my love, 364 more nights of anticipation to our 30<sup>th</sup> anniversary. That gives you plenty of time to find the man of your choosing for our only threesome with a man, plan out the venue and events to make it a time to remember forever,” Hank responded while lightly twisting her right nipple and licking the left.

Angel’s back arched in delight while feeling euphoric from his attentions and words. She held her breath as he grinned watching his own fingers walk down her stomach to her needy shaved lips.

“In one year, the biggest cock you have ever seen will be stretching this pussy beyond its limits. This clit will be sucked on by a man that is not your husband,” he flicked her clit back and forth as he watched her ribs shake from her unstable breathing.

“My want and don’t want lists are ready. Are yours?” she asked while quivering and stroking his eight inches more firmly and with purpose.

“My lists are done and the lists have been started for our 31<sup>st</sup> anniversary event,” Hank shoved four fingers deep inside of his wife as he pushed down her clit with his thumb. “Making it to seeing you with a woman is fueling me to make the extra dick event a success. There is nothing more that I want than to see this pussy right here being ate out while I maul the biggest tits we can find,” his hand pistoned in and out of her at the same pace that his wide raging hardon rammed through her palm and challenged her fingers to stay closed.

He knew his cock wouldn’t last much longer. He leaned down and pulled the closest nipple between his lips, securing it with his teeth as his hand fucked her as hard as he could. He so desperately wanted to explode while watching her fall to pieces.

Yanking his hand from her drenched honey hole, he slapped the bare pussy lips before pushing all four soaked fingers in her mouth. As soon as he saw her close her eyes he dropped her tit and demanded, “choke on that big dick covered in your pussy juice, that’s it, gag on him, show him you love that giant cock fucking your face after he wrecked your pussy,” Hank adored seeing Angel come, and come she did as his hot semen sprayed all over them.

He slowly removed his hand and rolled her on her side. Hank snuggled up against her but was too overheated to even think about covering them with a blanket just yet.
