**Non-Corrosive - Harmless to any Surface**

## **Disinfect with JUST 4 SIMPLE STEPS:**

### **Step 1**

Pull out the water tank  
vertically

### **Step 2**

Turn water tank to open.  
Put 20 drops of  
Stabilized Chlorine Dioxide &  
4 drops of Activating Agent.

### **Step 3**

Wait 1-2 mins for  
solution to activate.  
Then fill water tank  
with water.

### **Step 4**

Put water tank  
back in vertically.  
Press start button for  
continuous disinfection

**Small Offices**

**Kindergartens**

**Large  
Spray**

**Large  
Battery**

**Thin  
Fuselage**

**UV  
Sterilisation**

- The disinfectant must be used around 3 days after mixing.
- The disinfectant is for external use only. Do not take it orally. Keep out of reach of children.
- Do not mix and use with any other disinfectants, alkaline or organic matters.
- This product has a corrosive effect on metals and a bleaching effect on fabrics before dilution. Use it with caution.

Storage - Keep in a cool, well-ventilated and dry place. Keep away from direct sunlight. Do not contact or store with acids, organic items, flammable substances and any other strong reducing agents.
