Twitty and Constance Styles

Please respond using the RSVP form attached.

The Hamilton Hill Arts Center (HHAC) is a non-profit 501(c)(3) cultural arts organization. Our mission is to promote the knowledge preservation and continued development of the art and culture of the African diaspora. The HHAC blends the arts and culture of the African diaspora with educational and character building activities making it a unique resource in the Capital Region.

Our house of bricks and beams has served us well for many years, but now its crumbling and band-aid repairs will not sustain us for the foreseeable future. This year's Gala is the kick off for our Capital Campaign for a new building. Planning is underway for a new building for the Arts center that will become the kind of home we need for the future. We invite you to become a part of this important mission and help us build a new, strong and welcoming home.
