

# The Future of the Hamilton Hill Arts Center

We have entered a new phase at the Hamilton Hill Arts Center. Our current building is our third home in 53 years; it has served us well. For many of you, it has been the home you could always return to. Lack of space for our growing programs and the poor condition of the building have forced us to evaluate our plans for the future. After careful thought about our hope's dreams and priorities, we have launched on a journey that will result in a 1-acre us. cultural campus!

**PHASE TWO:**  
Completion of Gallery and Performance space in our Sculpture Park. This space will house our programs while we work on phase three.

**PHASE THREE:**  
Completion of New Arts and Education building where our present building now stands. Stop by our table and tell us what you'd like to see in our new building.

**PHASE FOUR:**
