

Lake Nacimiento South Shore Firewise Community

Hello to all Property Owners:

Many of you have seen or heard of the incredible amount of flammable vegetation that has been removed along our roads. This work is a good start on the goal of making all South Shore Communities Fire Safe.

Now we all need to jump in to do our part in maintaining the work that has been completed along our roadways and do the defensible clearance around all structures.

- Maintain the 25' clearance along the roadways.
- Minimum of 100' defensible space around structures

Contact Information for Flammable Fuel Mitigation:

Bunyon Bros Tree Service
(805) 547-1903
contact@bunyonbros.com
