Perpetual Adoration Chapel Door Automation Solution

Introduction

We offer an access control system for Adoration Chapels using Parishioners cell phones —no keys, fobs, or entry codes required.

Access is granted only to those who have registered, helping ensure a secure and reverent environment while simplifying entry management for both staff and parishioners.

This system not only enhances safety but also improves the overall experience for those visiting the chapel, providing peace of mind that access remains well organized and respectful of the sacred space.

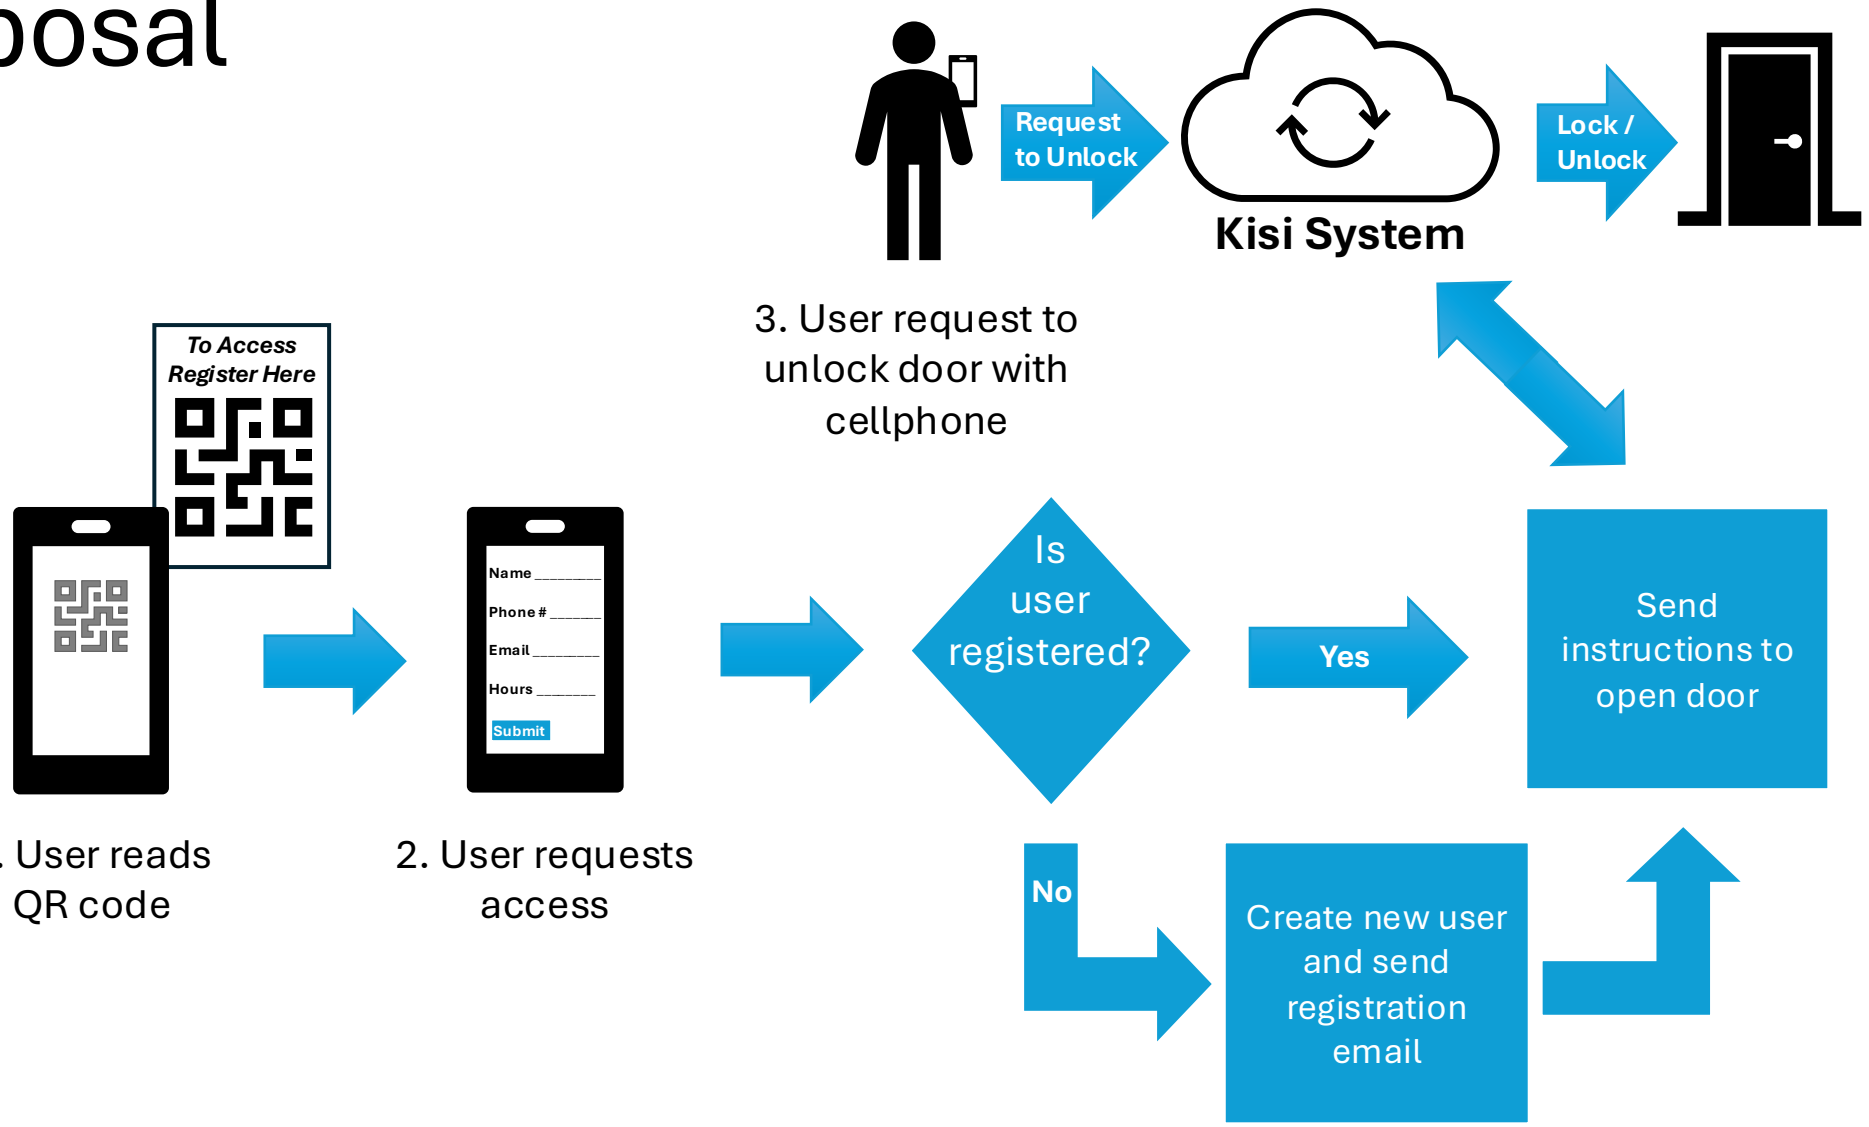
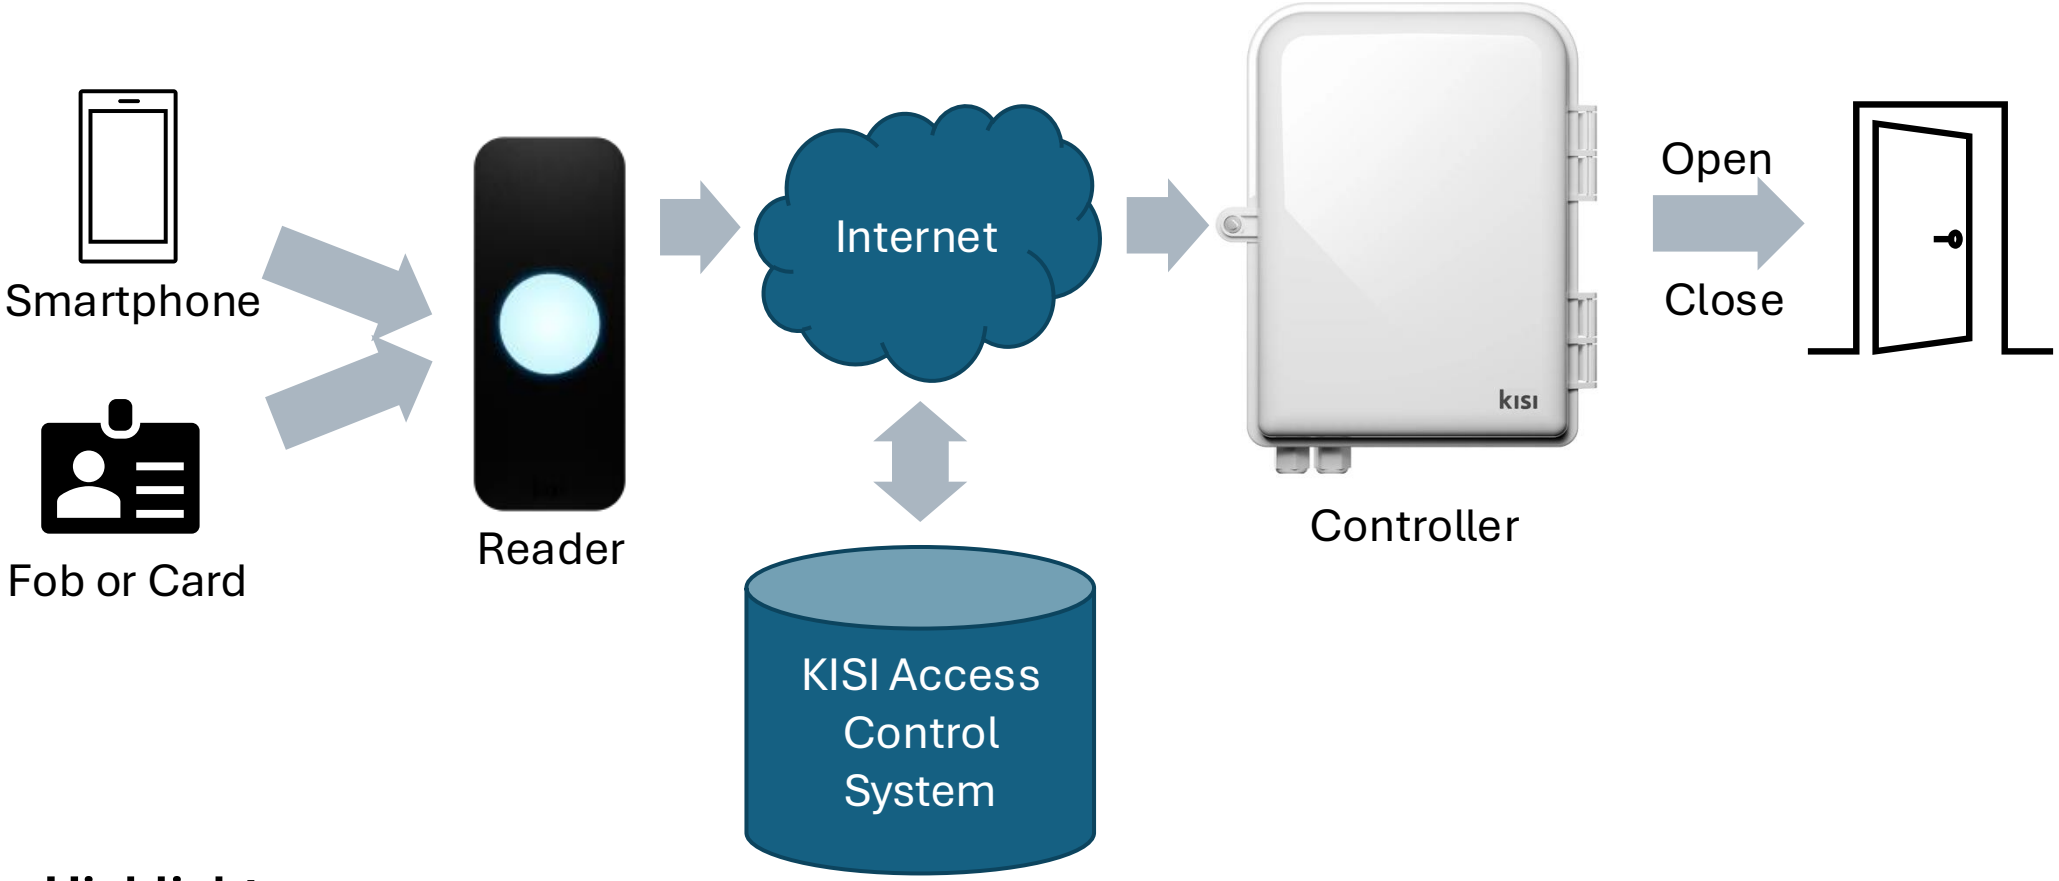
Adoration Chapel Proposal



How Kisi Works



<u>Highlights</u>:

- Geofenced
- Cell phone needs to be within 3 ft from reader to open the door
- Link to cellphone MAC address, impossible to share without registration
- Cell phone requires to be preregistered
- Compatible with fobs or cards if required
