

Lake Arrowhead Architectural Control Committee

RESOLUTION 2006-07-08 PROJECT PRE-APPROVAL

A. Purpose: It is essential for the Board of Trustees to have the opportunity to review, consider and approve plans for projects that are subject to the permitting process before those activities are undertaken. The penalty is intended to deter members from undertaking such projects without permits, and to help defray the expenses of responding to such unpermitted projects.

B. Work Projects Requiring Permits: All property owners must submit an application for building approval to the Architectural Control Committee prior to commencing any project involving building, alterations/additions, placement of manufactured/modular/mobile homes, installation of septic systems, construction of storage sheds, and tree cutting, land clearing and grading. The homeowner is required to verify with Mason County that their project will be in compliance with all limitations, restrictions and requirements such as, but not limited to, property line setbacks, lake front setbacks, environmental setbacks, shed size, height and whether it will contain any mechanical or plumbing fixtures. Per Mason County, no living spaces in storage sheds are allowed.

C. Failure to Secure Required Permits: When a project or work is begun that is subject to permit application processes, but no permit application approval is requested or work is undertaken beyond the scope of approval, the administration of the violation shall be pursuant to the Lake Arrowhead Violation Remediation Resolution.

D. In addition to the terms of that Resolution, if work is continued after a member or the member's contractor has been issued a "Stop Work Order" by the Board of Trustees or its representative, an additional penalty of up to \$1,000 will be assessed, as well as a penalty of up to \$50 per day until work is halted or an agreement is reached. In addition, the member's contractor or subcontractor, not including non-supervisory employees, shall, at the discretion of the board, be barred from working within Lake Arrowhead Community Club for a period of up to five (5) years.
