IS YOUR CONTACT INFORMATION UP-TO-DATE?

It is each member's responsibility to update the LACC office whenever your address, phone number, and email address changes. This allows emergency contact and correct delivery of Invoices, ballots, newsletters, etc. You may do this through the suggestion box in the longhouse, mail, email, or by office voicemail.

Please remember it is the responsibility of members to keep the edges of their property that face roads and or lanes clear from brush and debris. This includes keeping culverts and ditches clear and maintained.

Tips on when to use **911** and when to use the non-emergency line at Mason County Sheriff Department.

- Please use **911** whenever there is the following emergency: in progress, just occurred, or immediate threat to life, property, or the environment.
- Eva, Mason County's new A.I. does quite well if folks are patient and give her a chance. **The non-emergency number is 360-426-4441.** Unfortunately, many callers demand to talk to a dispatcher only to be placed on hold over and over, receiving interrupted and diminished customer service when they would be helped quicker using the A.I. system. Use this number for reporting anything not listed above.
