# Getting Started

## Icebreaker

Each person will describe his first car. You can mention the make (Toyota) but not the model (Camry). You may want to describe a few features before revealing the manufacturer. Close your eyes and imagine you are driving down the road as you describe it. The model is what the group will try to guess. Each person in the group gets two guesses (shout them out anytime). If no one guesses the right model after their guesses run out, go ahead and announce it. Tell everyone one thing you loved (or hated) about your first car and one of your favorite memories about it.
