

2025 Healing-Curious Humans Extravaganza September 25-26-27 in Loveland, Colorado

In late September, at the intersection of Hope, Healing, and Human Curiosity, a community is gathering. Families, neighbors, strangers, and friends – each an essential piece of a much greater whole – are coming together to wonder, discover, learn, play, and co-create a more awakened, connected, intentional, and thriving world. Here's what they've got in store!

In this dynamic, engaging talk, Ariana Friedlander invites participants to explore what it really takes to bring love into how we show up at home, at work, and in community. Together, we'll look at what gets in the way, and we'll practice ways to stay grounded in love when it matters most. You'll laugh, reflect, and leave with tools you can use right away - because leading with love isn't abstract. It's practical. And when we choose it, we strengthen our connections, expand what's possible together and find more fulfillment along the way.
