

# AGING HOME IN PLACE MODIFICATION

## CONFERENCE

April 11, 2019 • Hilton Garden Inn Downtown, Calgary, Alberta

**Older adults and those with mobility issues express a preference for aging in place. The question is, what are they doing to prepare and meet their aging in place goals?**

Designing and modifying the living space is a major part of the answer. Also important is the larger context of community and social relationships that impact their lives and give meaning and purpose.

Join us as we dissect the aging in place market, its transformation, opportunities, challenges and trends.
