

YOU'RE INVITED:

Connecting Families with the Realities of PDD Services

On behalf of the Calgary Service Provider Council, representing over 40 agencies supporting individuals with developmental disabilities, we invite you to join us for the first in a series of family engagement meetings.

These gatherings are designed to inform and connect families and support networks with the political, contractual, and sector-wide realities that impact the services your loved ones receive. While organizations have often shielded families from these challenges – out of respect for your time, advocacy fatigue, and trust – we believe it's time to open the conversation.

Many families have advocated tirelessly for years. Others are aging and have chosen to entrust organizations with navigating these complexities. But the truth is: the pressures on PDD organizations are growing and the individuals we serve, and your awareness and voice remain vital.

MEETING DETAILS:

Date: November 25, 2025
