Notice

South Choctaw Academy has been inspected by an EPA-approved asbestos inspector and maintains a management plan file in the school office as required under the AHERA regulations. The file is available to any parent to view.

Most of our asbestos materials, are in the form of floor tiles and textured drywall ceilings and are non-friable (friable means able to crumble with hand pressure). These materials are well maintained. The law requires that we make this notice to all employees, students and staff annually.

We are glad to provide a healthy atmosphere for students and staff.

South Choctaw Academy
