2014 Lifetime Achievement Award Acceptance Speech – André Lafague

CHIA – CASPA – SAC – WHAT’S IN A NAME?

OMG!!!

It is with great emotion that I stand today in front of you my dear S-A-C colleagues to receive this honor. I am humbled that some of my colleagues felt I deserved this nomination and took the time to prepare it. It is indeed a great honor to be recognized at the tail end of one’s career for over 15 long accomplishments... The fact that this nomination, with the celebrations of the 50th anniversary of our Association makes it even sweeter. Wow! What a ride it has been! And goes what? I was given a chance to do it all over again I would not change a single decision I made which had me to practice within and to participate in the development of two of the best professions in the world. And this within my beautiful country of adoption! 30 short years ago after graduating from USC, I applied for and was accepted for membership in an organization called C-S-A-A! My first membership certificate was signed by the then President, Gene Nelson of Alberta. I had the privilege to be present in 1989 when Elmore, a “force de la nature with a wonderful sense of humor” was the first member to receive the same honor bestowed on me today. One accepted the First Lifetime Achievement Award from the organization then called C-A-S-S-(P-A)

A different name you say? Yes but what’s in a name without people like you, or people like us in it?

As I look back at these 30 years I realize how little I would have been able to accomplish had I been all by myself without the support of my Provincial and National professional associations... And God am ever grateful...

I am grateful for the kind parents I had who instilled in me the concept of hard work and responsible citizenship. Through their own actions, they demonstrated to me an effective leadership model I chose to follow for my personal and professional life. As the old 99 year old man still says to me... “He le laisse jamais infolder par quiconque” > Never ever become subservient to anyone – Reserve your right to be able to say what you think is right and to defend your arguments – if you must! Always fight arguments, never people!

I am grateful to my professors both at MCM and USC who believed in me, planted seeds, cultivated them and validated my thirst for knowledge. Many of these professors have been lifetime mentors. One of them in particular, who is largely responsible for CERTIFICATION, Dr. John Gilbert was the first one CHSACASPA president to receive the Order of Canada! (When I doubted that I could be President of this organization, it was John who said to me in January 1985 said to him, and for the benefit of our guests from ASRA present today it was well before someone else used the slogan south of the border! Wow!) – “YES- YOU CAN”!

I am grateful to the many hundreds members, volunteers, colleagues, National Office staff I have had the pleasure to work with over the last 30 years on Executive or Board of Professional or benevolent Associations both on the provincial and national level or

Hall of Fame Speech

I want to start off by recounting a conversation I had a couple of years ago at the HMBBC banquet with Vince Holmes, our Sherbrooke honoree. He said to me “Tom, when you make your Hall of Fame acceptance speech, please keep it short.” At the time, I was gratified that Vince had such faith that I would be included in the Hall of Fame, but I was not sure if he was implying I was long winded, or that previous speeches were long. Well, Vince, rest easy. I have always strived to be concise or “Humble” (the play, not Vince’s dog, whose Shanghaiese says “Humbley is the soul of wit.” In saying this, I don’t mean to denigrate Vince’s dog, who often demonstrates more sense than his owner. In fact, the picture that Ed Nelson chose to accompany Bob McFarland’s article about me in the Parameter shows me holding the leash of Humble at the Subaru 4-wheeler in Buffalo two years ago. So my induction is yet another example of how the HMBBC is going to the dogs.

I have to recount an e-mail conversation I had with Bill Robinson after the cancellation of the banquet. He wrote me and said, “I figure that with the Some Senses sliding to new depths, a banquet honoring one of their esteemed professors would be the first HMBBC event ever to be postponed because of weather.” As I told him, “It’s a tall tale to me. Some speech, huh.” By the way, Bill, for your next present I am going to give you an autographed copy of Jose Canseco’s book, so you can find out a little more about baseball and honesty.

Spending all the celebration, I want to thank Debbie Black and Steve Blum for all the help they gave me in reaching these nominations and for all the work they have done in putting the banquet together. I especially want to thank Lee Wilson for trying up a second date to attend this event. I also want to thank my family and friends who traveled great distances to attend the event.

When I first became a member of the HMBBC in 1981, there were three names that dominated the racing scene: Pat Glover, Dale Krosset, and Bill Robinson. As I quickly discovered, as good as names as there were are, they are truly superior individuals. In particular, I want to go on the record as saying that Bill Robinson is the most heroic person I have ever met in my life. So to join any group which includes them is a privilege and a pleasure.

By singing them out, I don’t want to ignore or diminish the other august members of the Hall of Fame. The individuals, who are already in the Hall of Fame are exceptional in a variety of ways, ways which most of you already know. I admire and respect them all. But Bill, Pat, and Dale were always the shining stars in my racing timeline.

Introduction
Set the tone for your speech with a brief introduction. Consider starting with a light-hearted joke to connect with your audience (keep jokes to a minimum and avoid joking about value of the award itself).

Example
“Wow, thank you! What an honor! I have so many people to thank but I’ll keep this short because I know they’re about to serve dessert!”

Credibility
Express gratitude toward any people and organizations that helped you get the award.

Example
“It’s like to thank the Family I count on for leading the conversation about health, safety, and education.”

Interest
Feel free to mention a cause or issue you care about during your speech, but make sure it’s related and will not offend the audience or organizers of the event.

Example
“It’s clear to me that the current education system is imperfect—leaving students like customers and leaving the highest students—but the passion and dedication in this room is a sign that we’re moving forward in the right for equal access.”

Closing
If you’re representing an organization, briefly mention that organization’s goals and pay respect to their mission.

Example
“It’s honored to be a part of this organization—increasing the acceptance and stability of non-binary artists is a cause very dear to my heart.”

Reinforcement
Make a list of all the people you want to thank. Depending on how much time you have, you might not be able to list everybody so it may be best to thank people in groups.

Examples
“I’d like to thank the hard-working group of electrical engineers on set who brought my vision to life.”
“I can’t express how thankful I am to have had all of the volunteers working so hard for this cause.”

Award Ceremony Speech

Presentation Speech by Professor H. Pajeg, Chairman of the Nobel Committee for Physics of the Royal Swedish Academy of Sciences, on December 10, 1930

Your Majesty, Your Royal Highnesses, Ladies and Gentlemen:

The Academy of Sciences, has resolved to award the Nobel Prize in Physics for 1930 to Sir Venkuta Raman for his work on the scattering of light and for the discovery of the effect named after him.

The diffusion of light is an optical phenomenon, which has been known for a long time. A ray of light is not perceptible unless it strikes the eye directly. If, however, a bundle of rays of light traverses a medium in which extremely fine dust is present, the ray of light will scatter to the sides and the path of the ray through the medium will be discernible from the side. We can represent the course of events in this way, the small particles of dust begin to radiate, owing to elastic influence from the ray of light, and they form centres from which light is disseminated in all directions. The wavelength, or the number of oscillations per second, in the light thus diffused is here the same as in the original ray of light. But this effect has different degrees of strength for light with different wavelengths. It is stronger for the short wavelengths than for the long ones, and consequently it is stronger for the blue part of the spectrum than for the red part. Hence if a ray of light containing all the colours of the spectrum passes through a medium, the yellow and the red rays will pass through the medium without appreciable scattering, whereas the blue rays will be scattered to the sides. This effect has received the name of the "Tyndall effect".

An important ceremony is important to recognize man's contribution to everything he has done. This also increases their self -confidence and shows all their value. The ceremony is important because it notices the hard work and the victims that a person has brought, and we feel the respect and recognition of the people who held the ceremony in honor. It is the recognition of a person who has done a lot of work in the field in which he distinguished himself. It is also a question of allowing others to recognize a person and increase their reputation. The importance of the discourse indicating why speech is so important? The reason is that it allows people to communicate with those who share the same interests with them. Speech is also a motivation for changes. If people stop showing or even stop talking, the world would become a calm and sad place. Sometimes it can be frightening, but it is always an important form of communication.
