

# How to finish a Hay Baler

- Paint the entire baler John Deere Green.
- Paint the wheel and axle assembly a tire color black.
- Paint the rims yellow.
- Print this page on glossy photo paper.
- Cut out each emblem with a pair of sharp scissors. Cut as close as practicable to each emblem edge (inside the green) The green boundary is to help the emblem blend into the green body of the baler.
- Glue each emblem onto the baler as shown on the following page.
- Glue the axle and wheel assembly into the bottom groove provided.
