Jessica,

Is there a County policy that allows the County Administrator to delete Sheriff's Deputy's emails at will? What if we were investigating him, a family member of his or a friend of his for a crime...would he be able to hamper that investigation by deleting emails of the deputy? It is a government database...isn't it?

Jessica,

On January 10th 2022 I sent an email via a "reply all" which was within hours ordered to be deleted from our email system by the County Administrator Scott Arneson via directive to our IT department. I believe this was in violation of county policy, an abuse of position and power and the very definition of corruption. Our email system is part of a government database and is thus protected from scrubbing of information via "executive order".
