

AI IN PLAIN ENGLISH

AI predicts useful outputs from patterns. It does not know your business, verify truth or accept responsibility.

GOOD AT

- Drafting and reorganizing
- Summarizing approved content
- Finding patterns in data
- Creating options and checklists

NOT RELIABLE FOR

- Knowing what is true
- Finding missing context
- Applying current policy unaided
- Recognizing every risk

NEVER DELEGATE ALONE

- Hiring or discipline
- Legal or coverage decisions
- Money, access or eligibility
- Safety-critical decisions

THE SAFE WORKFLOW

AI & CYBER RISK REVIEW

AI creates leverage when the workflow supplies the context, controls and accountability.
