

HELPING OR EXPOSING YOUR BUSINESS?

The same tool can create leverage or liability. The difference is governance, data handling and review.

AI CAN HELP WITH

- 1 First drafts and outlines
- 2 Summaries and organization
- 3 Low-risk repetitive workflows
- 4 Idea generation and comparison
- 5 Pattern-finding in approved data

EXPOSURE STARTS WHEN

- ! Private data enters the wrong tool
- ! Output is published without review
- ! Employees create shadow-AI accounts
- ! Permissions are broader than needed
- ! AI influences a high-impact decision

WHERE CORMIER CONSULTING STEPS IN

AI use policy

Tool & vendor review

Employee guardrails

Cyber risk review

Data/workflow assessment

Responsible automation

AI & CYBER RISK REVIEW

Technology should make your business stronger - not quietly more vulnerable.
