

Attitude Rc Raceway Drivers Meeting 5/31/2020

WE ARE RACING!! ☺ Thank you all for coming out to enjoy this great weather and racing! We appreciate all the support we get each and every year at the track and appreciate each and every one of you!

Reminder to please be patient with everyone and RESPECT everyone today!! Remember the guidelines put in place, and just be courteous to everyone!

We would like to welcome all the new people here today. Thank you for coming to try out Attitude Rc Raceway. If you have any questions, see Kurt, myself or any of the other racers. We are all here to help each other out, compete and enjoy this hobby together.

Races will be broadcasted on your FM radio. 87.9fm

Thank you to everyone who helped out this spring and this week getting everything ready to race today. I could never do this alone and rely on a lot of help to make these race days happen.

Class Order for today: Amateur Class, Sprints, Midwest Sport Mods, Sportsman class, Sc Late Models, Amateur Sc Mods, Sc Mods

Race formats have not changed. Line your cars up on the backstretch as always. Rolling start through corners 3 & 4 and start the race coming out of turn 4.

All heat races will be 4min. Remember, to spread your cars out on the start. YOU ARE ON YOUR OWN CLOCK IN THE HEAT RACES! Your clock does not start until your car crosses the start line. When you race someone hard or get tangled up, you are only slowing yourself down.

All mains will be lapped mains, except the 2 Amateur classes.

45 lap lower mains (D-MAIN, C-MAIN, B-MAIN) A-mains will be 75 laps

Amateur classes will run 4 min lower mains, and 5 min A-mains

Winner from each lower main, will advance to the next main

Top 2 from the B-main, advance to the A-main

The winner of each A-main from today, will start in the back of their A-main on our next race day, which is Sunday, June 14th.

Short break between rounds. Enough to do the resort and water the track. Amateur class, start to get ready at the end of each round, because you will be the first out, when we start the next round.

2 min between races! We will start without you. We like to keep the show moving so we can all get home at somewhat a decent time.

Please respect everyone on the track today as well. We are here to race! We can bash at home, and we do have a rc demolition derby scheduled in the fall. So please put on good passes, if you do take someone out, remember good racer etiquette, so you don't have to put situations in my hands. I see it more and more, rc racers have more fun putting on good races, vs taking someone out and winning the race. I know I do.

Lets all have fun, and RESPECT everyone in the pit area and on the drivers stand! We all know our new normal, and lets make this all work so we ALL can enjoy the race day!

Thank you again for coming!!

Aaron
