

TANGENT™

RESIDENTIAL MATERIALS

Discover the Possibilities

Why Tangent?

We help create limitless possibilities by providing the highest performing material available. How do we do it? By continuously innovating on what's possible as the industry leader. We serve those who need superior alternative fabrication materials for outdoor applications.

Delivering unrivaled products that stand up to the test—
no matter what nature throws at them.

LEADERSHIP

We are the category creator and the largest, most advanced manufacturer in North America.

CUSTOMER ORIENTED

Dedicated to customized solutions through strategic partnerships.

DRIVEN BY MATERIAL SCIENCE

Continuously innovating what is possible in material science and engineering to deliver on customer and application need.

LIMITLESS PERFORMANCE

Our materials are rigorously tested to guarantee performance across strength, durability, and aesthetics.

Residential Material Performance:

Our materials are the durable, long-lasting and all-weather solution. They provide versatility of design that is unparalleled with traditional lumber.

Our residential material resists water, mildew, moisture, insects and chemicals. Repellent to surface stains, Tangent manufactures the highest performing materials **so you can create limitless beauty.**

BEAUTIFUL COLORS & TEXTURES

Full spectrum of colors and industry leading finishes, from stock to custom.

ENDLESSLY CUSTOMIZABLE

Any shape, any length, any color.

HIGH WORKABILITY

Fabricates like wood with the same tools and methods.

ENVIRONMENTALLY-FRIENDLY

Made from recycled materials in a closed-loop process.

PRODUCT VERSATILITY

- Outdoor Furniture
