

The Communication Workshop

LATEST NEWS...

We are excited to announce we have commenced phase 2 of our clinic build. Room 4 has now been built for therapy, small groups or small training sessions. We also now have an additional storage/admin room.

A warm welcome to Holly Hubert, final placement Speech and Language Therapist. Holly is in her 3rd and final year of training. She will be with us for 13 weeks and no doubt you will see her around the clinic and supporting therapy sessions.

The team continue to deliver speech and language provision as part of children's EHCP's across the borough's of Kent, Bexley and Bromley, as well as a full caseload of clients from our clinic base.

We thank you for your continued support and we would like to let you know we enjoy working with you all.

Spring 2025 Newsletter

SPRING ACTIVITIES

Spring Scavenger Hunt! It is time to look for signs of spring! You could make a visual checklist or simply go for a discovery walk together to see what you can find. Start with a discussion about what you might see to introduce spring vocabulary and practice predicting. Talk about all of our different senses and what you might SEE, HEAR, SMELL, and TOUCH during the walk. During the walk, look for signs of spring like flowers sprouting, buds blooming, bugs, nests/eggs, and other baby animals. You could target commenting, sounds, vocabulary and phrases such as 'I see...' Don't forget to retell what you saw after your walk. You could even take pictures during the walk and make a book about the signs of spring!

Egg Hunt.... Easter is fast approaching. Hide eggs around the house and garden and go on an Egg hunt together. You can use prepositions in/on/under/behind when finding or predicting where eggs might be.
