

PrivatEdu: On premise AI server for K12 Districts

PrivatEdu delivers a secure, private AI server designed specifically for K12 environments. With complete ownership, cost control, and included training and support, districts can safely explore the power of Generative AI—on their own terms.

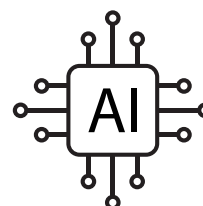

100% SECURE

100% SCALABLE

All-Inclusive Pricing Model - \$10,000

Components	Description	Cost
AI Server	Pre-configured and shipped ready to run	\$5,000
AI Server Support	One year of dedicated servers support	\$3,000
Online Training Access	One year of self-paced admin training	\$2,000

Why PrivatEdu?

- ✓ Keep student data private – no external logging or tracking
- ✓ Control AI access and usage at the district level
- ✓ Predictable, transparent budgeting
- ✓ Empower educators with local training and guidance
- ✓ No vendor lock-in – you're in control of the infrastructure

From People You Trust

This project is being sponsored by the non-profit **United School Administrators Leadership Foundation** and overseen by United School Administrators of Kansas in partnership with Alan Landever and Jeff Utecht
