

Powerful 4G LTE + WiFi for RVs

WINEGARD®

All-in-one connectivity.
CONNECT™ 2.0
Fast and expanded WiFi. In-motion connectivity, even in remote locations.

Easy 4G + WiFi upgrade.
GATEWAY™ & AIR™ 360+
Strong, secure internet. The Gateway router connects to the Air 360+ antenna (pre-installed in many new RV models). GPS enabled.

4G cell coverage. Anywhere.
RANGEPRO™ CELL BOOSTER
Works with all North American carriers. Captures signals from all directions for in-motion connectivity.

Create a secure hotspot for your RV and connect all your devices. Get maximum speed and range. Stay connected with on-the-go internet (4G). Flexible data plans available. Certified by AT&T, T-Mobile, and Verizon.

True, Local HD Channels with OTA Antennas

Premier.
RAYZAR® AUTOMATIC
Ultra-low-profile antenna eliminates the time and hassle of searching for signals. Quickly identifies all available TV signals and stops where the most local broadcast channels are found.

Connectivity capabilities.
WINEGARD® AIR™ 360+
Omnidirectional antenna requires no aiming or pointing. Add Gateway router for 4G LTE, WiFi, and GPS functionality.

Unsurpassed range.
SENSOR® IV
With a high look angle and patented design, this best-in-class antenna has a range of 60+ miles. Provides VHF and UHF programming for complete coverage. Low stow height is great for travel.

Low profile.
RAYZAR® z1
Optimal UHF reception with strong high-band VHF allows you to catch your favorite broadcast channels anywhere you go. Effortless rotation and no cranking required.

Winegard OTA antennas feature state-of-the-art amplifiers to increase range and channel options while reducing pixelation and dropouts. Maximum channel reception. ATSC 3.0 ready for 4K Ultra HD. Accessories RV-WING increases UHF reception for Sensor II and Sensor III antennas. SensorPro helps you find signals faster and easier. Boosts and amplifies signal for improved performance. Works with all OTA antennas.

High-Performance Satellite TV

Premium experience. Just like home.
TRAV'LER®
Watch on multiple TVs and record from different satellites simultaneously. Designed with premium, home-system-grade reflectors. Only automatic antenna solution for DIRECTV® HD!

In-motion viewing.
ROADTRIP® T4
Watch live TV while parked or traveling. Fast recovery when obstructions cause signal loss. Installs to roof requiring no set up each time you park.

Budget friendly. User friendly.
DISH® PLAYMAKER®
Portable antenna powered through receiver, only requiring coax cable. Fast acquisition time through a customized receiver interface. Single or dual outputs available. Bundle options include receiver.

Maximum flexibility.
CARRYOUT® G3
Portable, ultra-lightweight antenna compatible with multiple providers. Powered through the power inserter so no additional 12 V adapter needed.

Winegard satellite antennas are 100% automatic. No pointing or aiming. Roof mount antennas are ready to go once you reach your home away from home. No additional setup. Portable antennas take up minimal space so you can bring them wherever you go. Permanently mount to roof with RK-4000 (sold separately). Elevate your portable to reduce the number of possible signal obstructions with TR-1518 tripod mount.
