Winegard Company teams up with SureCall to offer new cellular booster system for RVs

The RangePro Cell Booster works with all North American carriers, giving RVers access to an unparalleled, in-motion cellular connection wherever they go

Burlington, Iowa, Nov. 17, 2020 (GLOBE NEWSWIRE) -- [Winegard](#), the company dedicated to bringing the greatest range of connectivity solutions to the world, announces today it has teamed up with leading cellular amplification manufacturer [SureCall](#) to release the powerful [RangePro Cell Booster](#).

Building a holistic ecosystem for RVs

“The RangePro fills an important niche in Winegard’s growing RV connectivity ecosystem,” says Winegard President Grant Whipple. “It’s specifically designed to enhance voice, text, and 4G LTE data signals in weak service areas.

“We’re very excited to bring the RangePro to market in partnership with SureCall. This is a product that was previously unavailable to most RVers. Now they won’t have to worry about dropped or missed calls as they enjoy their travels.”

Reliable calls and texting

“I believe customers are going to love what the powerful RangePro can do for them,” says SureCall CEO Hongtao Zhan. “Our driving mission is to improve cellular connections for everyone, everywhere. When Winegard approached us to work on this project, we saw it as a unique opportunity to bring reliable cellular internet, calls, and texting to RV users. I couldn’t be happier with how the RangePro system has turned out.”

The RangePro Cell Booster starts at \$499.00.

Features:

- Highest gain allowable on 3G & 4G LTE bands across all North American carriers
- Versatile and durable external mounting system designed to work with all RVs

- Industry-best 3-year warranty and lifetime tech support based in the USA
