Rod James knows that through your support,

**Tech students will
continue to excel.**

May 15, 2015

Dear Mr. Halloran,

A Montana Tech degree means opportunity. Over the last 37 years here in Butte, I have had the privilege of working with many students who understand this.

Some of them were recent high school graduates planning to use an engineering degree as a foundation to build a successful career and make the world a better place. Others went from high school into the military or the workforce and came to Tech to improve their quality of life and that of their families.

Tech graduates are leaders in both the public and private sectors of our economy, holding management positions in government and industry or establishing their own businesses. A few have attained PhDs and are now preparing tomorrow's problem solvers or are engaged in important research.

I am proud to see all Tech graduates use their degrees to resolve the issues that our world faces and hope you also feel pride in your connection to the Montana Tech community.

There is a saying "All good things must come to an end" and in my case that is my tenure at Tech. It is time to step aside and make way for the next generation. Will you help me celebrate this new chapter for Tech by contributing to the area you care about most today?

Tech graduates are making a difference in all 50 states as well as across the globe. I am honored to be part of one of the best educational institutions in the United States and its loyal community. Thank you in advance for supporting this great school and our talented students.

With gratitude,

Rodney A. James
Professor of Engineering

“ Even in retirement, I still plan on supporting Montana Tech, and I hope you join me by making a gift of \$50, \$150 or \$250 toward student success. Thank you.”

If you have recently made a gift, please accept our thanks.
