

Standard Process Products to Alleviate Mercury Toxins

Standard Process has some very helpful products to alleviate the throes of mercury toxicity. Please look at this starting line up and call to get started today.

1. **Lactic Acid Yeast** \$20, 7 first thing in AM to break down mercury in GI Tract and eliminate mercury environmental pathogens.

2. **Gastrex** \$23 3@1-3pm okra, bentonite, tillandsia to cleanse the lining of the GI tract, pull mercury and other toxins out

3. **Cataplex C** \$50 9 @3pm to cleanse and feed body, raise immune system, and act as a natural chelating agent.

4. **Ribonucleic Acid (RNA)** \$22 3@9pm to strengthen, regulate, and detox cellular metabolism

5. **Soybean Lecithin** - \$30 4@7pm to keep bile flowing in the release of mercury from gallbladder and liver systems, strengthen brain neurotransmitters

These Big 5 are actually a good idea for anyone concerned with their health and work to rectify many health situations from yeast infections to abdominal problems.

Best for now,
Tim
