## Portable Unit

<b>Portable</b>	<b>HDPE, High Density Poly Ethylene, food grade</b>
<b>Specs:</b>	<b>4.12 inches/ 10.48 cm (L) X 3.12 inches/7.94 cm (Diam.) Wt 1 lb.</b>

### Use

The Portable Unit is a wonderful unit for increasing the energy, improving flavor and taste, and neutralizing the toxins of any liquid or beverage.

Simply pour the liquid through the funnel end of the unit into a glass or container. Passing a liquid through the unit additional times increases the levels of energy to optimal levels. Flavor and taste improvements often occur with "multiple pass" through the structuring unit.

### IMPORTANT

Taking hot baths or pouring hot water through the unit for tea or coffee is acceptable for liquid temperatures **up to 140°F or 60°C.**

### Thank You for your Purchase

Through a healthy environment of air and water humanity will have the greatest possibility of reaching its optimal potential.

Thanks for helping maintain a green earth environment.

## IDEAS FOR ENJOYING YOUR PORTABLE

---

### Health and Enjoyment

Enjoy the benefits of structuring your water, coffee, soda, tea, juice, beer, wine, or other beverages of your choice. The Portable is small enough that it can be taken to a restaurant to structure all your beverages. You may find an extra glass helpful to pour the structured drink into. If the glass is hard to pour from, or lots of ice is in the way, simply spooning the liquid a little at a time into the mouth of the Portable will structure the liquid in the entire glass.

---

### The “Pinkie Pour” Technique

This will allow one to pour structured liquids wherever they desire. A few drops of the “now-structured” liquid back into the glass or bottle will change the way it tastes. To create a twice-structured drink, fill the chamber only halfway and then pour it back out the funnel side.

For multiple structured drinks, cover the funnel tightly at the top, while holding the pinkie on the other. Shake the liquid inside back and forth, from tip back to funnel, to create the multiple pass effect. This technique requires a hand size large enough to cover the funnel firmly. Also, it’s probably best done with water as a certain amount of spillage is likely. Experiment with care!

The “Pinkie Pour” Technique allows one to also turn the Portable into a convenient goblet and enjoy a structured beverage directly from the unit. Just remember to keep the pinkie firmly in place!

Use the water from your unit to wash or soak your fruits and vegetables for use in eating and cooking. Also, structure your liquids while cooking, such as in soups or stews. Submerging bottles or your foods in an airtight container in structured water has been used to improve flavors and tastes of food. Pour warm water through the Portable Unit for pleasant footbaths.

## **MORE IDEAS FOR ENJOYING YOUR PORTABLE**

---

### **Garden and Outdoor Uses**

In the garden, pour water through the Portable Unit to enhance the health and growth of all your plants and flowers. Enjoy watching your plants become healthier. The plants require less water when that water is Structured.

Animals and Livestock love Structured Water too! Fill up the pet's water bowls, stock tanks, the fish aquarium, or the birdbaths, ponds and fountains.... Use Structured Water wherever you use water around your home, farm, commercial and or Industrial applications.

The Portable Unit's light and compact design make it easy to take hiking or camping on your next vacation. Window washing just got a whole lot easier as structured water reduces film and streaking.

---

### **Structured Breathing - How it Works For You.**

Many folks now using Structuring Units to energize and neutralize toxins from their daily water intake, are beginning to find out and explore the notion of using their same unit as a Structured Breathing device.

Through the use of Structured Breathing, every person has the ability to open and maintain a regulating nervous system!

As we have discussed above, just know this...behind these sensational new awarenesses and experiences are the fundamental recalibration and regulation of the Autonomic Nervous System. The structuring process is making that happen by bringing the body back into balance. Enjoy it as part of your daily structured life. Stay structured, my friends!

## Carefree Ease of Use

---

All install-able products are engineered for simple installation with standard plumbing parts. Instructions are included.

### Cleaning:

Normal inline operation of the installed product will continuously clean the product.

**The Portable Unit** is dishwasher safe and can also be cleaned by soaking it overnight submerged in a solution of 1/2 cup of vinegar and Structured Water. When used to process liquids other than water, the unit should be rinsed immediately with hot water.

---

### Portable Care and Cleaning

1. **Cleaning Unit:** Clean by soaking the unit in a bath of water and apple cider vinegar, warm soapy water, or by running thru the dishwasher.
  2. **Storing Unit:** The Portable can be drained and stored in either direction, i.e., spout up, or spout down.
  3. **Warranty:** This unit comes with 9-year warranty against manufacturer defects. Misuse of the unit is not covered.
  4. **Cautions:** Avoid leaving this unit in freezing temperatures with residual water inside as it may damage the unit and impair its function.
  5. **Avoid dropping this unit** as it may result in damage or impaired function.
- 

### Subtle Influences on Water Quality

**NOTE:** Structured Water research shows Structured Water incorporates the vibration of its immediate surroundings. Further study shows, that Structured Water diminishes quickly in environments in which there is adversity and chaos and lasts longer in a harmonious peaceful environment.

It has also been discovered that Structured Water can incorporate the energies of thoughts and beliefs. You can, therefore, support the water's fine quality by maintaining an attitude of positive expectations about the water when you prepare or use Structured Water.
