**Note: All classes can be purchased separately, but the complementary classes are for full package purchase**

## **Course Tutor**

Patricia Ngassam is the founder of PHARMERS and the MTM Setup Program. As a pharmacist practicing in community settings, she had seen the pharmaceutical care and pharmacotherapy gaps that many of her patients found themselves in and wanted to provide solutions. The busy settings of most dispensaries were never ideal to investigate therapies further and patients were often left lost, with incomplete regimens and condemned to poor health outcomes. She began dedicating time to schedule practical sessions for her patient and offering MTM services to private patients in 2018. Through the years, the service offering has been refined and adapted to the South African context and laws surrounding pharmacists, pharmacotherapy and medicines. Giving patients the option to receive in-depth and higher quality care was her mission from then on. Now she trains other pharmacists into the PHARMERS MTM way.
