Privacy Monitoring

We provide you with a comprehensive identity protection service that leaves nothing to chance by monitoring your name, SSN, date of birth, email address (up to 10), phone numbers (up to 10), driver's license, passport numbers and medical ID numbers (up to 10).

Security Monitoring

High risk account monitoring.

We monitor your financial account numbers such as SSN, credit cards (up to 10) and bank accounts (up to 10). Additionally, we'll give you peace of mind with credit score tracking, financial activity alerts and sex offender searches. And with the family plan, Minor Identity Protection is included and provides monitoring for up to 8 children under the age of 18 for no additional cost.

Social Media Monitoring

Let us help you protect yourself by monitoring multiple social media accounts and content feeds for privacy and reputational risks. You will be alerted to privacy risks, like the exposure of Personally Identifying Information (PII), including street address, date of birth or SSN, as well as reputational risks; like foul language, drug and alcohol references, or discriminatory terms.

Credit Monitoring

Gain access to continuous credit monitoring through TransUnion that you can access immediately via the service portal dashboard on myidshield.com or through the free IDShield mobile app. Credit activity will be reported promptly via an email alert and mobile push notification.

Credit Inquiry Alerts

Instant hard inquiry alerts.

Receive alerts when a creditor requests your TransUnion credit file for the purposes of opening a new credit account or when a creditor requests a credit file for changes that would result in a new financial obligation;

such as a new cell phone account, a lease for a new apartment or a mortgage application. Inquiry alerts can be helpful in determining when an identity thief is opening a new account without your authorization.

Monthly Score Tracker

Get a monthly credit score report from TransUnion that plots your score month-by-month on a graph, giving you the ability to see how your credit score changes over time by indicating the score factors that provide insight into what events may have caused your specific credit score to change.
