Services

Environmental Consultation

It is one of our targets to achieve our client's project goals cost-effectively through the consultation service that we offer which will raise the awareness of environmental and ecological impacts and by strategic planning and permitting from our Biologists, Environmental Scientists, and Environmental Engineering Associates.

Environmental Field Services

We offer environmental services and tools that allow you to effectively reduce emissions to the atmosphere and save energy consumption. our experts have the knowledge to realize your environmental ambitions. Our processes are reliable and accredited and you can rely on innovative technologies to enable lean work processing. Identify, manage and reduce VOC and methane emissions and improve the efficiency of your operations through energy-saving services.

Air Pollution Monitoring

Our service range includes a wide range of source apportionment studies, heavy metal testing in ambient air & stack emission, workplace monitoring service, environmental monitoring service, indoor air quality monitoring services and ambient air monitoring services.

LDAR

LDAR or more specifically Leak Detection and Repair (LDAR) is a program that identifies unintended or fugitive emissions from equipment in an oil and gas, chemical or petrochemical installation. It drives maintenance activities to reduce emissions to the atmosphere effectively.

Technical Staffing Services

Our service doesn't stop at recruitment. We offer you a complete total quality assurance solution, providing essential support services for you and your employees. Our aim is to be your partner, taking care of all your technical staffing needs and allowing you to save time and money by reducing both recruitment time and expense and ultimately focusing on your core business. Whether you are seeking to fulfill short-term staffing needs or long-term requirements our talent acquisition specialists are equally skilled at recruiting and retaining people for short and medium-term contracts or permanent placements. We always help you source the best possible candidate for your needs.

Our TSS service provides a full range of customer focused recruitment solutions, covering the full range of project life cycle:
