Honor Cards: Are a donation of \$30+

- The honor card is a physical card for your clients which is mailed to them when you pay for it.
- It can be used as a closing gift for your client as with Honor Cards, you notify your client that a donation has been made on their behalf to CMN.
- The honor card is completely customizable but they also do have preset messages (please note that wording is important if you're customizing a message so say the donation is made on their behalf not from your commission(as it doesn't come from commission))
- If you also know that you'll be donating before closing, you are able to label the property as a **"Miracle Home"**!
- You are only able to pay online through your credit card/ACH; the honor card won't be mailed to your client until the donation is already paid for. (the honor card does not let the client know how much you've exactly donated)
- You are also not able to accrue an Honor Balance to pay off monthly, you must pay for each honor card as you make them.
- **100%** of all donations go to our **local** Children's Miracle Network Hospital
- if you donate **\$500+ in a year**, you will be a **"Miracle Agent"**!

Here are the steps to create an honor card:

1. Go to your MaxCenter and find "CMNH Portal"

Children's Miracle Network Hospitals raises funds for 170 children's hospitals across the U.S. and Canada, helping make sure every child receives the best possible care. We let our member hospitals decide how to use these funds, ensuring the most urgent needs are met.

We know there's power in numbers—collectively, we can transform a child's future in an amazing way. So, we make it easy for anyone to join our cause, inviting them to support their local children's hospital in memorable ways. By rallying shoppers, students, gamers, golfers, families, and more, we raise over millions of dollars each year.

But we have our sights set even higher. Because we know that when we improve treatments and facilities, we can address the most challenging health issues of today while preventing and preparing for those to come. When we fund pioneering research, we transform how we care for children not just in their youth, but throughout their lives. When we make it easy and exciting for people to support local hospitals, our impact grows exponentially.

When we can change kids' health, we change the future— for all of us.
