

BD880_{AM/mm}

Iniezione Diesel Tradizionale
Traditional Diesel Injection

The alternative to Rabotti tradition: BD880 manufactured at Rabotti China but with quality and Rabotti Italy warranty

Excellent value for money: 15 kW and 12 cylinders engine, equipped with graduated burettes, offers an alternative solution to test in line and rotary injection pumps. They also permit to check pump timing and to calibrate the LDA regulators. They can be used as well as excellent host benches for all Rabotti system.

DIMENSIONS AND WEIGHT

Dimensions (W x L x H)
2400 x 1100 x 2150

Weight
900 kg

FLOWS MEASUREMENT

Graduated Cylinders Volumes
0 ÷ 270 cm³ / 0 ÷ 42 cm³

Points of Measurement
n° 12

DRIVING MOTOR

Engine Power
15 kW

Velocity Range
Speed measurement range:
50 ~ 4000 rpm

ELECTRICAL DATA

Electrical Socket
3P + N + GND

Voltage - Frequency - Amperage
400 / 230 V - 50 / 60 Hz - 30 / 55 A

Power Required
19 kW

TEST OIL

Oil Tank Capacity
60 Lt

Oil Type
DIN ISO 4113-1978c or GB 252-64
