

TEC201 EVOLUTION

Common Rail Test Benches

Rabotti TEC201 has been upgraded in 2020:

- The electronic boards and software have been completely redesigned to enhance bench functionalities
- External devices like Coder, QR Code and IIC Coder are no more requested*

These enhancements allow to introduce the following new features

- IMA coding for Bosch solenoid injectors for passenger cars (CRI2);
- 6 and 10 character IMA coding for Bosch industrial solenoid injectors (CRIN);
- 7 and 10 character ISA coding for Bosch piezoelectric injectors (CRI3);
- Bosch dual coil CRIN4.2 injector test;
- Coding C2I, C3I and C4I for Delphi DF11-DF11.5 and DF11.20 injectors;
- 16, 22, 24 and 30 character coding for Denso injectors;
- Internal sensor test present in Denso i-ART injectors;
- 6-character coding for VDO injectors;
- Test of the NTC temperature sensor present in Denso pumps.

* an activation and an annual license are required

DIMENSIONS AND WEIGHT

Dimensions (W x L x H)
1100 x 540 x 270 mm

Pulpit Dimensions (W x L x H)
600 x 490 x 1050 mm

Tub Weight
50 kg

Pulpit Weight
100 kg

FLOW SENSORS FEATURES

Flow Range
1 ÷ 4000 cm³ / min

PRESSURE DATA

Working Pressure Range
Up to 2500 bar

ELECTRICAL DATA

Electrical Socket
2P + GND

Voltage - Frequency - Amperage
230 / 120 V - 50 / 60 Hz - 4 / 7 A

Power Required
1,5 kW

TEST OIL

Oil Type
DIN ISO 4113
