

10 Tips for Effective Networking

01 Set Clear Goals

Define what you want to achieve through networking, such as finding a new job or building professional relationships

06 Quality over Quantity

Focus on building a few meaningful connections rather than collecting a large number of business cards.

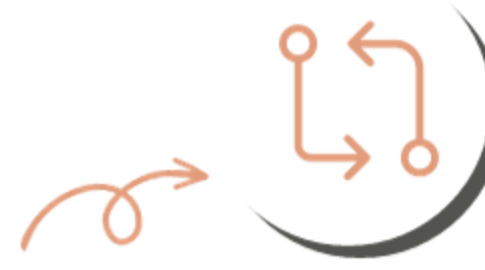

02 Research

Learn about the event or people you'll be networking with to have meaningful conversations.

07 Follow Up

After networking events, follow up with new contacts to maintain the connection.

08 Offer Help

Be willing to offer help or support to others in your network.

09 Stay Visible

Stay active on professional platforms like LinkedIn to stay visible in your network.

10 Practice Gratitude

Show appreciation for any help or advice you receive from your network.

05 Be Yourself

Be yourself and show genuine interest in others rather than trying to impress.

04 Listen Actively

Show genuine interest in others by listening attentively and asking thoughtful questions.

03 Elevator Pitch

Prepare a concise introduction that highlights your skills and goals.
