

The GPS Speedometer

Veethree GPS Speedo's are available in Premier Black Pro, Premier Black, Argent Pro, Omega, Lido Pro, Lido, Arctic.

Veethree Instruments is proud to announce the release of its GPS speedometer to the market. This instrument provides accurate speed over ground readings and heading information all in one attractive package. Available in various speed ranges to meet your application. The GPS speedo is offered in a number of popular styles to match the colors in your boat.

Our GPS speedo can be connected to an existing NMEA 0183 receiver if you have one

already installed or you can purchase separately our custom design GPS receiver/antenna. This product is ideal for all speed applications and is particularly useful for slower speed craft and higher speed craft where traditional speed sensors like pitot tubes and paddle-wheels do not perform well. An added advantage is there is nothing in the water to corrode or break.

Release date of March 2010

AT A GLANCE

- Available in speed ranges of 60 MPH, 35 MPH, 60 knots and 30 knots
- Included LCD heading display to show course over ground
- Use our GPS antenna (sold separately) or connect to an existing NMEA 0183 GPS device (NMEA 2000 in the future)
- Speed accuracy of +/- 1 MPH (once moving)
- Heading accuracy of +/- 1 degree (once moving)
- Ideal for slow speed applications like pontoon boats and for high speed performance boats where pitot tubes do not perform well.
- Custom OEM styles and ranges available.
- Contact your sales representative for details.
