We've been there:

Remember, wear Shoes over the dry socks, if not, you'll rub the dry socks raw, you'll be wet for a time and charged \$350 for replacement socks.

We understand that you'll swim, hike and smile, for a story & things will get damaged, and will need to repaired be. We get that, but sock rub is not a good story.

Finally, our dry suits were saved from the landfill, and we've worked hard to keep them dry!

Let us know if we missed a spot or if you made one, thank you!
