

Camp Café Mobile Coffee Trailer – Buyer FAQ

Why are you selling?

We both work full time in healthcare and simply do not have the time needed to run the business regularly anymore.

Is everything included to start operating?

Yes. The trailer, equipment, generator, POS system, branding, inventory, and recipes are all included. A new owner could begin operating right away.

How much revenue can it generate?

Our typical outings averaged around **\$500-\$750 in 6 hours**, and we completed private events generating **about \$2000 in four hours**.

Revenue will vary depending on how often the trailer is operated and the types of events booked.

What types of events work best?

The trailer works well at:

- farmers markets
- festivals and fairs
- weddings
- breweries
- sporting events
- corporate events
- private parties

How long does it take to set up at an event?

Usually about **20–30 minutes** depending on the location.

Does it require shore power?

No. The included **Westinghouse 9500 generator** easily powers the trailer when electricity is not available.

Can the menu be changed?

Yes. The new owner can bake or serve whatever they like. The equipment allows a wide variety of baked goods and specialty drinks.

Do you provide training?

We are happy to spend time showing the new owner how the equipment works and how we operated the business.

Is the trailer ready to use?

Yes. Everything is installed and operational.
