

PRIVATE PRACTICE CARDIOLOGY OPPORTUNITY

Independent private practice cardiology is alive and well.

- Best of both worlds. We have developed a unique hybrid model of independence and ample transparent operational business support.
- Seeking Electrophysiology, and Invasive Cardiologists seeking alternatives to health system employment model.
- Independent cardiologists make more money, cost patients less money, have more autonomy when the practice is well managed.

Our practice is a cardiology group poised for growth.

- Remains small enough to avoid political power struggles.
- Mature, stable, engaged support staff.
- Established collaborative relationship with community primary care and call partners.
- Physician Principal interested in success for all.
- Employees, HR, IT, collections, analytics, reimbursement optimization, outsourced in partnership with local highly effective large management company with physician ownership and opportunity for new members.
- Direct care and contracting, emerging payment model experience, diversified revenue streams.
- Strong relationship with full service, physician friendly hospital, co-management arrangement.
- Emphasis on outpatient practice with minimal inpatient unassigned call burden.

Living is easy in Monroe, Louisiana.

- Beautiful small town with thriving food and art culture, robust innovative business community.
- Ample high end housing with multiple waterfront listings.
- University strong in health science producing quality support staff.
- Medical school with teaching and mentoring opportunities.
