Cut & Colour Character Combinations

Instructions:

1. Colour in all 6 characters and their names in whatever colours you like.
2. Collate into a booklet by page number and staple into a booklet.
3. Fold each piece along the first vertical line with fold indicator.
4. Cut along the inner two horizontal dotted lines with the ✂ symbol - repeat for all 6 characters.
5. See how many different character combinations you can make by folding over the HEAD-BODY-LEGS strips.

See if you can work out which top  letter best matches each character?

(Each HEAD, BODY & LEGS strip can also be made into a card if preferred - cut along the outer dotted line and fold each strip in half and glue (picture on front - letters on the back). Build different characters using the cards.
