Introducing us to our- selves

Prior Identity is not just an idea; it's a movement. It's a call to recognize our individual and collective identity as the thinking, conscious self-aware brain of the universe—a profound shift that could change everything about how we see ourselves, each other, and the world.

This concept has transformative implications for every sphere of human life—personal, societal, and ecological.

We believe that when enough people realise this view of what a human brain is, we can shift the collective consciousness of humankind.

A world rooted in this new understanding can be more peaceful, more united, and more responsible for this brain's life-support system we call Earth.

**This is our vision.
This is our mission.**

This can only be accomplished with human and financial resources to match the challenge of enabling such a once-in-a-species paradigm shift for Humanity.

We are starting from scratch

The untold number of hours that have gone into developing the concept of Prior Identity have been provided from a bottomless cup of love and passion for an idea that could change everything.

We need a full-time team!

Creating a global movement requires a dedicated team. We have a brilliant gathering of neurodiverse young graduates and professionals who can manage outreach, multi-media production, educational initiatives, and organisational development. And we need as many as we can afford to gather together.

We can create Youtube videos, social media campaigns, documentaries and movies, educational resources and curriculum for children of all ages, organise and host both in-person and online events, develop media campaigns and influence and inspire a vast array of organisations and individuals.

Which means we need the means to spark this huge fire into life

Why We Need You Now

We're at the forefront of a revolution to spread this realisation worldwide. To start and accelerate the movement, we need your support.

Every area of society can be transformed by this seismic shift in perspective. Your contribution - from the smallest amount to the largest - will help us engage brilliant minds and provide them with the resources to advance this radically different view of reality around the world.

*By becoming a Founding
Supporter...*

*Your financial support will not
just fund a movement—it will
establish you as a founding
catalyst for a new era of human
understanding.*

*We extend a welcome to you to
join us by helping to fund the
exceptional creativity that is
needed.*

**Our first goal is to be
able to gather together
the people who can
see this vision, and
who will be able to
give this their full-time
attention.**

*By funding this core team, supporters
directly empower a diverse group of
mostly neurodivergent brains with their
unique abilities and ways of seeing
things.*

Our second goal is to be able to provide this team with facilities and technological infrastructure

Secure creative workspaces, technology, and software necessary for collaboration. This includes a physical hub where local team members can gather and state-of-the-art digital infrastructure for global, remote participation.

Providing a space—both physical and virtual—for neurodivergent minds to come together ensures PIRM's creative and strategic efforts are supported by the right environment and tools for global outreach.

The core initiatives for spreading Prior Identity worldwide

Content Creation across Mediums

We aim to develop a wide range of multimedia content, including videos, podcasts, articles, social media posts, books, and interactive workshops, to explain Prior Identity in engaging and accessible ways.

Global Translation and Localisation

PIRM materials will be translated into multiple languages, adapting content to resonate with diverse cultural perspectives and ways of thinking.

Partnership Development with Influencers, Thought Leaders, and Institutions

Form partnerships with influential figures, thought leaders, academic institutions, and community organizations worldwide to expand PIRM's reach.

Research and Publications on the Impacts of Prior Identity

Fund research to empirically explore the psychological, social, and existential benefits of embracing Prior Identity, demonstrating its transformative effects.

Educational Programs and Curriculum Development

Develop educational resources for all age groups, integrating Prior Identity into existing curricula, workshops, and extracurricular programs.

PIRM Events, Conferences, and Public Speaking Engagements

Host events, conferences, and seminars to raise awareness, foster dialogue, and recruit new members and supporters for the movement.

Crowd-Sourced Projects and Local Initiatives

Launch community-driven projects worldwide, empowering local groups to spread Prior Identity through grassroots efforts.

Social Media and Online Community Building

Create and sustain active online communities where people can share experiences, learn about Prior Identity, and participate in regular live events.
