of the Year

Indica Illusions

Favorite Strains: I'm an-Indica girl at heart. I really love Northern Lights (aka Mt. Ranier), Haunted Trails, and Rare Dankness.

Favorite Sesh Place: My bed is my all-time favorite place to share some quality time with myself and Mary Jane!

Favorite Activity: 3. Since I'm partial to indicas I welcome the "couch lock"! I love to write poetry these days shortly after a good session!

Favorite Feature: Take me as I am or don't, I'm ok with that! I hope that sets an example for my children and all the beautiful people of the world who suffer from low self esteem or Body Dysmorphic Disorder! Love the whole package! #CraveTheRave

- 1) Anything heavy indica is preferable for me. I once tried a boutique strain called Purple Alien and I had slight hallucinations in Walmart and smelled every candle on the aisle.
- 2) I naturally love being around all my bongs in my cozy office, but if I could teleport to anyplace , anytime. It would be a moutian lake sitting on a pier mid summer .
- 3) I love to cook super stoned and I love to color adult coloring books with old school gel pens. Something about the lines filling up with glitter ink puts me in a different world where I can actually just "not".
- 4) I think my best quality is being able to see where someone else stands without losing ground and my "Can't stop - Won't stop!" attitude when I have a goal.

- 1). My favorite strain is Super Sherbet. It's a laid-back head and body high for me. I have a lot of pain, plus insomnia, so I am an Indica all day, girl. Super Sherbet makes me giddy and my laugh is contagious.
- 2) My favorite place to get stoned is wherever I happen to be. At home, I put on music and dance.
- 3). My favorite activity when I'm stoned is trying to remember where I put my cell phone.
- 4). The favorite part of myself, or what I like most about myself is my big heart. I want to help everyone.

| 18 | 19 | 20 | 21 | 22 | 23 | 24 |
| 25 | 26 | 27 | 28 | 29 | 30 | |

Favorite Strains: Strain? Ha! I live in an illegal state! Indica or sativa is as technical as we get. I like both!

Favorite Sesh Place: My patio is my place to smoke. Nature is there, and my dog. Morning is beautiful, afternoon is busy, and night is quiet.

Favorite Activity: I love to talk when I'm stoned! I'm normally quiet but I am talkative when I'm high. I am funny as hell!

Favorite Feature: The thing I like most about me is my open mind. I am willing to accept others as they are. Bodies are not sexy; minds are.

Miss October 2022

| 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| 9 | 10 | 11 | 12 | 13 | 14 | 15 |
| 16 | 17 | 18 | 19 | 20 | 21 | 22 |
| 23 | 24 | 25 | 26 | 27 | 28 | 29 |
| 30 | 31 | | | | | |

Favorite Strain: This is going to sound so lame but I'm not about picking favorites since I haven't had the pleasure of always knowing what I was getting until I started growing my own. I'm currently in week 5 of Mango Kush.

Favorite Sesh Place: My favorite place to be stoned would be my office. It's not your typical office since I'm a streamer. I have windows to open to air it out after and LED lights all around. So with the music from my computer and the LEDs I'm transported to a different world while smoking.

Favorite Activity: I love to be stoned and dance. You can feel the music so much deeper and really let it flow through you. It's even better on a nice night outside under the stars!

Favorite Feature: My favorite part about myself would be my eyes. I have mostly green eyes but around the pupils it's a amber color, then into a green that changes in tones and around the outer edges it's a thin lime blue-green circle.

My favorite activity while I'm stoned is definitely baking. I make the best baked goods while stoned!
