

Metline Slim Series toilet seats are designed to bring a **modern, elegant, and ultra-slim** appearance to contemporary bathrooms. Combining aesthetic simplicity with durable engineering, each model reflects a perfect balance between **comfort, hygiene,** and **long-lasting performance.**

Manufactured with high-quality **polipropilen** raw materials, Metline toilet seats offer **superior durability, easy cleaning,** and resistance against daily wear. The ultra-slim structure provides a refined and stylish touch while maintaining maximum strength and stability.

Our advanced and effective **soft close mechanism** is engineered for **silent, smooth,** and **controlled closing** performance. Tested up to approximately **30,000 opening and closing cycles,** the mechanism demonstrates **long-term reliability** and **premium functionality** for everyday use.

Metline products are officially covered by a **2-year warranty,** while the tested durability and material quality are designed to provide confidence for many years of use.

With a focus on **quality, hygiene, functionality,** and modern bathroom aesthetics, the **Metline Toilet Seats Series** offers a premium solution for both residential and commercial projects worldwide.
