

METLINE®
SANITARY SYSTEMS

LINEAR SHOWER & FLOOR **DRAINS**

DIVERT
THE FLOW OF
WATER

ABOUT US

Metline Sanitary Systems Co. has started business life in 2010. In the following years continued to offer its products by increasing range. Due to the needs of the globalizing world trade market continued to grow up rapidly by further expanding its product range with shower channels, floor drains, braided flexible water hoses, waste fittings for kitchen and bathroom.

Metline Metal aims to be one of the well-established companies of the sector with its experienced R&D and marketing team by prioritizing customer satisfaction. In this direction, it aims at efficient production and sustainable quality and closely follows the latest technological developments.

Considering quality as the most fundamental right of customers; which has TSE, TS, EN, TSO, GHOST, SEPRO and ISO 9001 quality certificates, offers many technical products used in the construction sector such as heating, plumbing, ventilation and air conditioning.

Metline Metal aims to provide the most accurate and fastest service with customer expectation sensitivity. Metline Metal, which successfully represents our country abroad with its pre-sales and after-sales service quality, serves 25 countries in 3 continents.

As the Metline family, we are working to develop our product range by producing new, different and out of the ordinary products every year with a dynamic and young team. We design the future of bathroom for you.

We are working to design products that have not yet been designed together with you. We are walking with you to a better future by producing trouble-free products and shipping them to you.

In our changing and transforming world, we are working to design products suitable for bathrooms, which are a part of the culture of each geography, and produce products that are suitable and enjoyable for everyone.

We are with you to make you happy with aesthetic and useful products in 25 countries.

MINI **FLOOR** DRAINS

Floor drain material: Stainless Steel AISI 304.

We produce Floor Drain models in 2 different sizes (100 mm, 150 mm).

With Stainless and Plastic frame.

There are 50 / 100 mm in the Bottom and Side outlets.

Anti odor, water trap feature is available.
