Vollmer's Cheesecake Factory and Bakery

provides the finest quality dessert products with a popular European-style taste that customers request by name.

Vollmer's products offer a unique style and taste that originate from proven Old World formulas.

We have perfected our processes continuously since the first quality baked items were sold in 1932. We use only the best all-natural ingredients for our gourmet products, with many items imported directly from Europe. Top quality ingredients are only the first step in creating our offerings. Vollmer's products are nurtured under the watchful eyes of experienced bakers and pastry chefs throughout the entire process.

Vollmer's exquisitely made desserts are the paragon of excellence. Each delectable item begins with its own unique recipe. We do not add flavoring to a stock formula to arrive at this level of quality, natural taste and flavor. Many of our gourmet products are based on old family recipes that maintain popular customer appeal today. All baking is rendered to perfection on the premises from scratch using state-of-the-art production equipment to meet your volume needs. That is why discriminating palates prefer Vollmer's Cheesecake Factory and Bakery products.

Vollmer's cheesecakes, tortes, specialty cakes and pastries are available in food stores, gourmet markets, selected restaurants and caterers throughout the country. We also offer special items available to fit your market needs.

Once you enjoy the aroma, texture, flavor and appearance of our products, we trust you will share our excitement in being able to offer them to you and your customers.
