

SUPPORTING SURVIVORS OF
DOMESTIC VIOLENCE

The leading cause of injuries for women is abuse at home. Domestic violence injuries happen more often than car accidents, mugging and rape combined.

Our Mission

The mission of StopDV is to improve safety for domestic violence victims and increase access to resources for survivors.

Your Support

Your tax deductible donations allow us to provide court advocacy, safety planning and support to domestic violence survivors, along with legal services while their cases are active.

Through this program, victims can receive assistance with costs associated with changing locks, divorce filing fees, subpoena/witness fees and more.
