

QUALIFICATIONS

To qualify for the Med-CAL services, the patient must be under the care of a physician, a dentist or a podiatrist, be homebound and require intermittent skilled care. This may include observation, instruction, or hands-on care.

ACCESSING A.F.F.R.E.E.C.A.

A.F.F.R.E.E.C.A. works on a referral basis. Though referrals typically originate with the physician, they may also originate from any local hospital, doctor's office, board and care or skilled nursing facility and also, from the patient's family, other interested persons or agencies. Between 24 and 48 hours after A.F.F.R.E.E.C.A. representative will be alerted to the patient's needs, the patient will be seen, evaluated and care will begin. Under certain circumstances, special immediate care can be rendered the same day.

A.F.F.R.E.E.C.A. 501c(3)

Pursuant to Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, A.F.F.R.E.E.C.A. does not discriminate in the provision of services and employment because of race, color, sexual orientation, national origin, disability or age.

A.F.F.R.E.E.C.A. provides services 24 hours a day, seven days a week. Our office is open by appointment from 9:00 AM until 5:00 PM, Monday through Friday. On-call personnel are available to take care of your calls after office hours, on weekends and holidays.

Mission Statement

To provide the community with the highest level of health care in the home by hiring the most competent, compassionate clinicians available.

SERVICES PROVIDED DIRECTLY

Skilled Nursing Care
Certified Home Health Aides

SKILLED NURSING CARE

The registered Nurse provides skilled care and instructions to patients and their families. They enable the patient and family members to function independently at home, thereby increasing the comfort of the patient and improving their overall health. Some skilled nursing services include:

Administration of injections
Assessment of neuromuscular, cardiovascular, and gastrointestinal status
Wound Care
Foley Catheter care
Ostomy care
G-tube care

PERSONALIZED TEACHING

Educational programs designed to meet the individualized needs of the patient.

1. Insulin administration and diabetic care.
2. Use of oxygen and respiratory equipment.
3. Respiratory, bladder and bowel training.
4. Preparation and side effects of medications, including those drugs delivered during intravenous therapy.

WHO ARE THE PROFESSIONALS WE SEND TO YOUR HOME?

1. Registered Nurses (RN's) provide individual care and case management for medically prescribed treatments.
2. Licensed Vocational Nurses (LVN's) working under physician's orders and RN supervision, administer medications, provide treatments, and assist the patient with returning to independent activities of daily living.

3. Certified Home Health Aides provide personal care and aid in the overall improvement of the patient's quality of life.
